I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I appreciate the fact that I live in America, the Land of the Free — & that freedom has always been the Freedom of Choice. In my case, I had the freedom to choose to use compounded prescriptions instead of synthetic hormones made from horse urine. Not only do these customized compounded prescriptions relieve my symptoms every month, it also relieves me of uncomfortable side effects that synthetic hormones have. So, please, FDA, remember us little people in America & quit being a pawn for all the pharmaceutical companies who continue to make phenomenal amounts of money off us! Let us continue to have a CHOICE!
